

GARDEN HOMES

Gardenia

3 Bedroom / 2½ Bath / Double-Car Garage

2000 square feet heated

The Gardenia is a 2,000 square foot home that offers two bedrooms, a study and two and a half baths. The foyer is the perfect size for greeting guests and family members when they come to visit. Although the living and dining rooms are directly connected,

265 square feet floored attic

the dropped ceilings and architectural detail create the effect of two different rooms. The breakfast nook is an offset of the kitchen, also appearing to be a separate entity. The primary bedroom offers a dressing room suite with double sinks outside of the water closet and shower.
